Subject: Update on data entry effort

All-

I just wanted to give you an update on how things are progressing. I spoke to Suddha this afternoon, they will be completely done with the 4 initial homes data effort first thing tomorrow (they had 4 files to go) and are still working on the 17 homes task. It looks like by the end of the day tomorrow they will be half way through the documents for the 17 homes. As I'm sure you know, they have up to 8 people working on this, for each group of homes they are reviewing close to 450 documents and over 15,000 pages of information (The attachment is a summary of everything they are reviewing). It's certainly going faster now that they have already gone through all the information for the initial 4 homes.

Ex. 5 - Deliberative

Thanks-
Stephanie
